

## FLUENCY FRIDAY PLUS- 2009!

Fluency Friday Plus is a program designed to help children/teens learn more about communication and to meet others who stutter. The FFP program provides individual and group treatment sessions for participants. Children/teens will have many opportunities to talk and participate in discussions about stuttering. The treatment activities will be developed by graduate students in Speech-Language Pathology from the University of Cincinnati and Bowling Green State University. Experienced clinicians from the area will provide supervision and support. A Parent Program features speakers in the field to discuss many aspects of stuttering. On Saturday morning, siblings are welcome to attend. FFP promises to be a wonderful experience for the kids and other family members!
